COMPLEX ANALYSIS SEMINAR

CONDITION R AND PROPER HOLOMORPHIC MAPPING OF PIECEWISE SMOOTH DOMAINS

Debraj Chakrabarti

Tata Institute of Fundamental Research

ABSTRACT: We study the boundary regularity of proper holomorphic maps between certain classes of piecewise smooth domains including product domains. This leads to results on the biholomorphic inequivalence of such domains. This is joint work with Kaushal Verma.

Date: Thursday, February 7, 2013
Time: 4pm-5pm
